INTRODUCTION

Your favorite marsupial, Crash Bandicoot™, is back! He’s enhanced, entranced, and ready-to-dance with the N. Sane Trilogy game collection. Now you can experience Crash Bandicoot like never before – in full Fur-K. Spin, jump, wump, and repeat as you take on the epic challenges and adventures through the three games that started it all, Crash Bandicoot™, Crash Bandicoot™ 2: Cortex Strikes Back™, and Crash Bandicoot™ 3: Warped™. Relive all your favorite Crash™ moments in their fully-remastered HD graphical glory and get ready to put some UMPH in your WUMP!

GETTING STARTED

After launching game, you will have the option to choose between Crash Bandicoot™, Crash Bandicoot™ 2: Cortex Strikes Back, or Crash Bandicoot™ 3: Warped. Pick a game, jump into a level, and get ready to play all that remastered glory.
1. **Wumpa Fruit:** Once you collect 100 Wumpa Fruit, you earn an extra life!

2. **Boxes:** Track the number of boxes left on each level.

3. **Lives:** View your remaining lives.

4. **Aku Aku Mask:** Aku Aku will protect you from danger during your adventure. Collect three to temporarily be invulnerable to any damage.

5. **TNT Boxes:** Jumping on these will start a 3 second fuse and BOOM! Be careful to never Spin attack any of these.

6. **Checkpoint Boxes:** Allows you to return to that checkpoint if something tragic were to happen to Crash.
You can earn valuable Gems and Keys throughout your adventure. Clear Gems are awarded in the Stage Clear area by getting through an entire level breaking open all of the boxes. Colored Gems are awarded on certain levels by breaking open all of the boxes in a level and not losing a life. Keys are awarded in the Cortex Bonus Rounds. Gems and Keys allow Crash to access secret areas that were not originally open to him.

Bonus Rounds can be accessed by collecting tokens found inside boxes. These tokens may feature the likenesses of Tawna, Dr. Neo Cortex, or Dr. N. Brio. Once you have collected all 3 tokens, you will be transported to a Bonus Round that features a ton of boxes and Wumpa fruit. If you end up falling off the screen, do not worry you will not lose a life, you simply will be transported back to the level you started from.

COMBO MOVES

Run + / / R: Slide
○ + / / R: Body Slam
○ / ○ / R + ○: High Jump
Welcome to the ancient Warp Room! As Dr. Cortex explained this was built by an ancient civilization centuries ago and allows you to access points all over the world to find those coveted Crystals. The Portal doors will track your progress and track any gems you collect along your journey.

**Crystals**

Crash must collect all 25 Crystals to power the Cortex Vortex and save the world from a catastrophic solar flux. For each level you play there will be one Crystal for you to collect and place on the Portal door.

**Bonus Paths**

Bonus Paths are marked by a giant ‘?’ platform that leads Crash to a secret path. In these areas, you can earn lots of goodies, but only if you complete it. If you fall or die, then you will return back without any of your hard-earned bonuses.

**CRYSTALS**

Crystals are the most important items in the game. Find all 25 Crystals to finish the game (there’s one hidden in every level except the Boss levels). In some levels, you will earn the Crystal at the end or after completing a specific challenge.

**GEMS**

There are two types of Gems:

- **Clear Gems** are mainly awarded for breaking all the boxes in a level but can be awarded by other means in select levels.
- **Colored Gems** unlock hidden paths in levels different from where the gem is found.

**RELICS**

You can win relics by re-entering the level after collecting the Crystal. You can play in Time Trial mode and if you beat the level under the pre-designated time (shown before you enter the level), you will be rewarded either a Sapphire, Gold, or Platinum Relic.

The first five Relics you receive will open up a Secret Warp Room and one secret level. Every five relics thereafter will open up another secret level. You must go through these secret levels to get 100% completion of the game.
**TIME TRIALS**

After you finish a level the first time, race through it again in Time Trial mode. You can win a Sapphire, Gold, or Platinum Relic depending on how fast you go. Sapphires are fairly easy to win and Platinum means you really “hauled bandicoot.”

To make a Time Trial run:

1. The pre-designated time appears on the level button in the Time Warp chamber. This is the time you must beat.

2. Touch the stopwatch near the beginning of a level to activate the timer; otherwise you will play the level in regular mode.

3. Speed through the level as fast as you can. When you break a box with a number on it, the clock freezes for that amount of time.

4. In the Time Trial mode, you do not lose lives so play through as many times as you like.

**PLAYING AS COCO BANDICOOT**

Coco Bandicoot has used her Time Machine to travel back in time and help Crash! Look for her as you play through each of the three games. Once you find her, you will gain the ability to swap in Coco before you select certain levels, using the ZR trigger. Note: some levels are Crash or Coco specific.
