## **WARNING: PHOTOSENSITIVITY/EPILEPSY/SEIZURES**

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. **IMMEDIATELY DISCONTINUE** use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- eye or muscle twitches
- disorientation
- any involuntary movement
- altered vision
- loss of awareness
- seizures or convulsion.

**RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.**

---

### **Use and handling of video games to reduce the likelihood of a seizure**

- Use in a well-lit area and keep as far away as possible from the television screen.
  - Avoid large screen televisions. Use the smallest television screen available.
  - Avoid prolonged use of the PlayStation®4 system. Take a 15-minute break during each hour of play.
  - Avoid playing when you are tired or need sleep.
- 

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

### **NOTICE:**

Use caution when using the DUALSHOCK®4 wireless controller motion sensor function. When using the DUALSHOCK®4 wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS4™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS4™ system while using the controller.

### **WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PS4™ system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

### **HANDLING YOUR PS4™ FORMAT DISC:**

- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

## GEMS, KEYS, AND BONUS ROUNDS

You can earn valuable Gems and Keys throughout your adventure. Gems are awarded in the Stage Clear area by getting through an entire level without losing one Crash and breaking open all of the boxes. Keys are awarded in the Cortex Bonus Rounds. Gems and Keys allow Crash to access secret areas that were not originally open to him.

Bonus Rounds can be accessed by collecting tokens found inside boxes. These tokens may feature the likenesses of Tawna, Dr. Neo Cortex, or Dr. N. Brio. Once you have collected all 3 tokens, you will be transported to a Bonus Round that features a ton of boxes and Wumpa fruit. If you end up falling off the screen, do not worry you will not lose a life, you simply will be transported back to the level you started from.

## WARP ROOM

Welcome to the ancient Warp Room! As Dr. Cortex explained this was built by an ancient civilization centuries ago and allows you to access points all over the world to find those coveted Crystals. The Portal doors will track your progress and track any gems you collect along your journey.

## CRYSTALS

Crash must collect all 25 Crystals to power the Cortex Vortex and save the world from a catastrophic solar flux. For each level you play there will be one Crystal for you to collect and place on the Portal door.

## BONUS PATHS

Bonus Paths are marked by a giant '?' platform that leads Crash to a secret path. In these areas, you can earn lots of goodies, but only if you complete it. If you fall or die, then you will return back without any of your hard-earned bonuses.

# CRYSTALS

Crystals are the most important items in the game. Find all 25 Crystals to finish the game (there's one hidden in every level except the Boss levels). In some levels, you will earn the Crystal at the end or after completing a specific challenge.

## GEMS

There are two types of Gems :

Clear Gems are mainly awarded for breaking all the boxes in a level but can be awarded by other means in select levels.

Colored Gems unlock hidden paths in levels different from where the gem is found.

## RELICS

You can win relics by re-entering the level after collecting the Crystal. You can play in Time Trial mode and if you beat the level under the pre-designated time (shown before you enter the level), you will be rewarded either a Sapphire, Gold, or Platinum Relic.

The first five Relics you receive will open up a Secret Warp Room and one secret level. Every five relics thereafter will open up another secret level. You must go through these secret levels to get 100% completion of the game.

## TIME TRIALS

After you finish a level the first time, race through it again in Time Trial mode. You can win a Sapphire, Gold, or Platinum Relic depending on how fast you go. Sapphires are fairly easy to win and Platinum means you really “hailed bandicoot.”

To make a Time Trial run:

- 1** The pre-designated time appears on the level button in the Time Warp chamber. This is the time you must beat.
- 2** Touch the stopwatch near the beginning of a level to activate the timer; otherwise you will play the level in regular mode.
- 3** Speed through the level as fast as you can. When you break a box with a number on it, the clock freezes for that amount of time.
- 4** In the Time Trial mode, you do not lose lives so play through as many times as you like.
- 5** When you finish the level, the Name screen appears so you can register your best time.

## PLAYING AS COCO BANDICOOT

Coco Bandicoot has used her Time Machine to travel back in time and help Crash! Look for her as you play through each of the three games. Once you find her, you will gain the ability to swap in Coco before you select certain levels, using the R2 trigger. Note: some levels are Crash or Coco specific.
